TRULY YOUR OWN

Enhance your extraordinary SUV with our state-of-the-art accessories which will surely take you on a greater adventure every single time. These accessories are specially designed and engineered to suit your Forester, so take your pick and drive in style!
**EXTERIOR**

1. **Front Lip Spoiler**
   - **Part No.:** 01750FA000
   - **Price:** PHP 31,640.00
   - This spoiler rectifies the flow of air from the front to the sides of the vehicle and improves driving stability. It controls the flow of air and prevents it from lifting the vehicle by diverting it towards the rear.

2. **Front Side Under Spoiler (2 Pcs)**
   - **Part No.:** 01750FA010
   - **Price:** PHP 8,690.00
   - This spoiler rectifies the flow of air into both front sides of the vehicle as well as improves driving stability. It also controls the flow of air and prevents it from lifting the vehicle by diverting it towards the rear.

3. **Aero Garnish (Rear Door) (2 Pcs)**
   - **Part No.:** 01750FA020
   - **Price:** PHP 36,640.00
   - This product rectifies the airflow from the front to the side of the body when the car is running. It also provides a protective function in the rear end of the rear door which is prone to damage by loose gravel and other debris.

4. **Rear Side Under Spoiler (2 Pcs)**
   - **Part No.:** 01750FA030
   - **Price:** PHP 49,650.00
   - This product rectifies the airflow from the front to rear by pushing the air efficiently towards the rear end. It also corrects turbulence around the rear number keeping the car body stabilised and improving passenger comfort.

5. **Side Under Spoiler (2 Pcs)**
   - **Part No.:** 01750FA040
   - **Price:** PHP 10,800.00
   - This is an aerodynamic part which rectifies airflow from the front to the side of the vehicle body when the car is moving. Rectifying the airflow under the car body which helps to lift the car towards the rear of the vehicle. As a result, the car becomes more stable and the handling becomes smoother.

**INTERIOR**

1. **Push Start Switch**
   - **Part No.:** 01750FA050
   - **Price:** PHP 14,760.00
   - Push-button ignition starter switch for models with keyless entry and push-button start switches. The cherry red buttons with the STI logo in the center gives the interior a sporty look.

2. **STI Shift Knob, Leather**
   - **Part No.:** 01750FA060
   - **Price:** PHP 21,830.00
   - High quality leather is used and a STI logo is embossed in cherry red on the top of the gearshift knob. The sides are upholstered with dimpled leather for a sporty finish, in piano black for a premium touch.
ALLOY WHEELS

STI Alloy Wheel 18" (Gummets) (4 Pcs)  
STI Alloy Wheel 18" (Black) (4 Pcs)  
STI Alloy Wheel 17" (Gummets/Black/Silver) (4 Pcs)

These cast aluminium wheels are made using the spinning production process to form the shape of the rims. This ensures a reduced weight with increased rigidity. The design perfectly matches the new Forester body design and its colours.

FOR WHEELS

STI Valve Cap Set (4 Pcs)  
STI Security Wheel Nut Set  
STI Wheel Nut Black Set (20 Pcs)  
STI Wheel Nut Blue Set (20 Pcs)  
STI Wheel Nut Gold Set (20 Pcs)

For wheels, the valve caps are lightweight with a knurled finish design on machined aluminium to prevent slippage. A silver anodize treatment has been applied to the surfaces of these valve caps to improve its resistance to weather and match the color of the aluminium wheels. The hexagonal heads of the valve caps have rounded tops, and a cherry red STI logo is stamped on the embossed area.

FOR ENGINE

STI Battery Tower Bar  
STI Engine Oil Filter Cap  
Performance Oil Filter  
STI Flexible Tower Bar

A unique battery holder reminiscent of the flexible tower bar, adds an attractive highlight to the engine compartment. In addition to security routing the bulky battery.

*Compatible with batteries with "D" as the third digit

This oil filter cap consists of a die-cast aluminium base that has been machined and given a styrene resin cover. The shape of the cap has been specially designed to allow for use even when wearing work gloves. The silver aluminium base with embossed black cap showing the cherry red STI logo adds a special touch to the engine compartment.

*a gasket is not included

This is an oil filter with enhanced performance thanks to an increased filtration area of 15% compared to conventional filters. With dedicated materials to improve its particle collection performance, the filter also captures fine particles such as carbon and reduces pressure loss by 10%. It is compatible with high viscosity oil, providing a stable performance not only on roads but also on the circuit track.

This is a drift tower bar with a new concept: splitting an aluminium tower bar in the center and connecting the two pieces with alloy ball joints. As the left and right pieces are flexibly connected, the bar can moderately handle longitudinal forces such as kicks on the road to maintain ride comfort while strongly holding against lateral forces during cornering, greatly improving cornering performance, straight-line stability and ride comfort.
**EXTERIOR**

**Door Visor**  
Without Chrome Molding (2 Pcs)  
PHP 5,880.00  
These visors are durable, crack-resistant and designed for an unobstructed view of the side mirrors. Its smooth and tapered design is integrated with the external lines of the vehicle for a bold look. It provides good air circulation and keeps the rain out when driving with the windows down.
