

Autoglym Carbon Shield

Protect Your Subaru's Shine

From bumper to bumper, Autoglym's advanced Carbon Shield coatings ensure your Subaru remains in pristine and protected condition.

Paintwork coating

Protects vehicle paintwork against harsh contaminants and the elements to lock in colour and shine.

Paintwork coating preserves the paintwork's depth of colour and shine, and ensures maximum resistance to environmental hazards, even in the most severe weather conditions.

Glass coating

The result is the raindrops roll off to improve wet-weather visibility for safer driving conditions.

Glass coating creates a water-repellent barrier that is highly durable, optically clear and easy to clean.

Have your Subaru shining like new with Autoglym Carbon Shield
